

NOTICE TO ECONOMIC OPERATORS

By means of this Notice, it is hereby communicated that the National Anti-Corruption Authority (ANAC), with effect from 01/10/2025, has extended the application of controls over the correct registration of economic operators.

This extension entails **the obligation, for all economic operators intending to provide services, works or supplies to public administrations (PPAAs), to be registered in the ANAC registers.**

Operators who have not yet done so are therefore invited to complete their registration via the link provided below, even in cases where such data have already been submitted through the Digital Procurement Platform (Tuttogare).

Step 1: User Registration and Assignment of Access Rights to Services
<https://www.anticorruzione.it/-/servizio-di-registrazione-e-profilazione-utenti#p2>
Please follow the instructions for creating a profile as “OE Administrator”.

Step 2: Profiling

Once the access credentials have been obtained, please complete or update your profile via the following link <https://portale-servizi.anticorruzione.it/user-provisioning>

Please note that, in the absence of profiling on the ANAC website, the Foundation will be unable to finalise, via the Digital Procurement Platform (PAD), the award procedure for works, goods and services to unregistered operators, as the platform does not permit the creation of the relevant data submission form and the acquisition of the CIG (Unique Contract Identifier).

For any further information, please contact the ANAC contact centre: +39 / 06 62289571
