Address: 63 Valprato street, 10155, Turin, Italy (Work)

WORK EXPERIENCE

01/07/2019 – CURRENT Venice, Italy

NEGOTIATING SUPPORT CONSULTANT AT RISK ASSESSMENT AND ADAPTATION STRATEGIES (RAAS), FONDAZIONE CMCC JAROSLAW MISIAK

Activities aimed at research and development on adaptation to climate change in the context of the actions planned for the international negotiations of the United Nations Framework Convention on Climate Change (UNFCCC). Continuous support to the Ministry of the Environment and Energy Security (MASE).

31/12/2018 – CURRENT Turin, Italy

RESEARCHER AND POST-DOC AT REGIONAL MODELS AND GEO-HYDROLOGICAL IMPACTS (REMHI), FONDAZIONE CMCC PAOLA MERCOLIANO

- Research and development of studies aimed at assessing the risks of climate change impacts in relation to different socio-economic systems, with a specific focus on heat waves, health and social inequalities in the urban contexts;
- Research and development of studies aimed at prioritize adaptation to climate change at the national, regional and local scale;
- Co-design approaches for the involvement of key-stakeholder into climate change adaptation processes;
- Creation of contributes for the Climate-ADAPT health section and the European Climate and Health Observatory.

01/11/2019 – 31/12/2020 Milan, Italy

JOURNALISTIC COLLABORATOR ON CLIMATE CHANGE ISSUES, LE NIUS FABIO COLOMBO

10/2018 – 05/2019 Venice, Italy

RESEARCH CONSULTANT: EVALUATION OF DIRECT AND INDIRECT FLOOD LOSSES, VIU UNIVERSITY CARLO GIUPPONI

Bibliographic research, data analyses and literature review drafting on the assessment of direct and indirect financial damages deriving from floods, as part of the project "Methodology of quantification of indirect financial losses from natural disasters" commissioned by the World Bank Group".

04/2018 – 11/2018 Lakatamia, Cyprus

CLIMATE-KIC PIONEERS INTO PRACTICE CLIMATE-KIC

Workshop formation: Modena (IT)

International Placement: Lakatamia (CY)- LIFE UrbanProof project [European Commission]

30/11/2015 – 06/2018 Rome, Italy

ITALIAN CLIMATE NETWORK MEMBER, TURIN COORDINATOR AND OFFICIAL DELEGATE TO CLIMATE CONFERENCES ITALIAN CLIMATE NETWORK

I started my experience as a delegate member at the Conference of the Parties in Paris (COP21) in 2015. From that moment I became an official delegate to the climate conferences. My tasks are to communicate through articles and reports the information related to new climate negotiations and side events. From

2016 I have been selected as the Turin section coordinator, and this has given me the opportunity to strengthen my skills in the organizational and social communication fields.

30/11/2016 – CURRENT Turin, Italy

URBAN CLIMATE CHANGE ADAPTATION SUPPORT CONSULTANT, MUNICIPALITY OF TURIN PIERO PELLIZZARO (CLIMALIA)

My responsibilities include research, events organization, policy formulation and drafting of topical papers and reports on urban adaptation and resilience. I am also the intermediary assistant between public and private external stakeholders, facilitating related networking events. The objective is to develop the urban adaptation strategy for the City of Turin, considering also the industrial districts with the aim to define a starting point in order to address extreme local events related to climate change.

02/08/2015 – 19/11/2015 Bonn, Germany

UNITED NATIONS FRAMEWORK CONVENTION ON CLIMATE CHANGE INTERNSHIP, ADAPTATION PROGRAMME OLGA PILIFISOVA

Through this experience I gained a deeper understanding of the international climate change policies and the negotiations through Parties. It was a multicultural environment that amplified my knowledge about climate change adaptation worldwide. I interned at the Adaptation Committee, and my tasks involved research, meetings and expert workshops organization, qualitative and quantitative analyses connected to the Intended National Determined Contributions and, finally, social network communication.

EDUCATION AND TRAINING

01/09/2017 – 10/06/2022 Venezia, Italy

PHD IN SCIENCE AND MANAGEMENT OF CLIMATE CHANGE. THESIS ON “EXTREME TEMPERATURES IN URBAN AREAS”. FOCUS ON SOCIAL INEQUALITIES AND THE BUILT ENVIRONMENT Ca' Foscari University of Venice

Website <https://www.unive.it/pag/7859/>

08/2017 – 07/2018 Venezia, Italy

MASTER OF RESEARCH IN IMPACTS AND MANAGEMENT OF CLIMATE CHANGE Ca' Foscari University of Venice

02/04/2017 – 03/04/2017 Bonn, Germany

RECONCILING ADAPTATION, MITIGATION AND SUSTAINABLE DEVELOPMENT FOR CITIES - RAMSES TRAINING European Union

The RAMSES project aim is to deliver quantified evidence of the impacts of climate change and the costs and benefits of a wide range of adaptation measures, focusing on cities. During the training event, I learned how to use methodologies, assessments and frameworks to evaluate climate risks and adaptation options to support urban areas and local communities. In particular, there was a focus on issues related to hazard such as heat waves and floods on urban scales.

14/12/2016 – 17/12/2016 Rovereto, Italy

SCHOOL ON RESILIENT CITIES

The aim of the course is to raise the citizen awareness in order to design the cities of today and tomorrow. During the training we were presented case studies and related tools to increase the responsiveness of the socio-economic system to multiple crises in local communities. It was an intensive course that taught me a lot in regards to policy design for resilience, financial instruments and policy legacies, and finally urban planning and infrastructure resilience policies.

08/2013 – 12/09/2016 Turin, Italy

MASTER'S DEGREE IN ENVIRONMENTAL ECONOMICS AND POLICIES (EACT) University of Turin (UniTO)

I graduated with a master's thesis on climate change urban risk assessment and adaptation strategies, related to Heat Waves in Turin (Italy). This Master gave me the opportunity to strengthen my potential in economics in connection with the environment. During the first year I followed several quantitative

courses, such as Environmental Economics, Asset Management and Natural Resources, and Applied Mathematic & Statistic. Then, in the second year, I had several specialization courses as Climate Change: policies and instruments, and Geographic Information System (GIS).

Level in EQF EQF level 7

07/2014 – 12/2014 Oslo, Norway

MSC. IN ENVIRONMENTAL, RESOURCE AND DEVELOPMENT ECONOMICS, ERASMUS+ University of Oslo (UiO)

During the Erasmus+ I focused on three main exams: Resource Economics, Microeconomics and Game Theory, and the Politics of Poverty. During my studies in Norway, via conferences and personal readings, I expanded my knowledge in relation to climate change and adaptation. This experience allowed me to find an internship suitable to my interests, and to become familiar with the Anglo-Saxon academic methods.

Level in EQF EQF level 7

08/2009 – 04/2013 Turin, Italy

BACHELOR'S DEGREE IN BUSINESS ADMINISTRATION University of Turin

During the three year of the bachelor's degree program I attended courses related to Economics and Management, Marketing, Microeconomics and Macroeconomics, Statistic, Mathematics, Accounting, Planning and Control, Corporate organization, and Private, Public, and Commercial Law. This allowed me to create a solid economic approach as a starting point to deepen my studies in environmental economics.

Level in EQF EQF level 6
